The visuals in this game alone are worth the \$2. The graphics and artwork are very dark and mesmerizing, and the story surrounding serves to accentuate the surreal atmosphere of the game. It's admittedly a very short game -- one playthrough was about half an hour, and the full story requires two playthroughs, but even then it is still definitely worth buying.. Best choose your own adventure videogame I ever played. RIP in pece Telltale.. Serviceable in all regards. The bullets are a little hard to read sometimes from all of the colorful stuff flying around, but I just need to git gud.. I spent 99 cents for cat girl hairstyles in a clicking game.

I regret nothing.. Great app, best money ive spent in a while. Boor is a bore.

This game wishes it was Fez, or Inside, or Limbo. I can see that the developers were shooting for the stars, but Boor lacks the puzzles and the atmosphere that made the games it imitates, great.

Skip unless you truly love puzzle platformers.. Pretty fun game, works well. I don't see why these negative reviews are so prevalent. It's really fun. :P

I actually played this for quite some time, even though Steam apparently stopped counting after 0.4 hours. As much as I wanted to like this game and get into the comedy side of it, I just couldn't. I came into the game expecting a point-and-click adventure like my childhood game Grim Fandango, maybe I was aiming too high. I didn't really find much of the witty comments or any of the jokes that funny, I actually only remember giggling once in the game. Obviously this is a personal opinion of the game, some people will like it, some will not. Cannot recommend a game that relies on comedy, but is not funny.. A pretty good detective game with pretty good story. Not too long aswell. Great gameplay and decent graphics for that time. Get it on sale for sure!. Truthfully, the reality TV setting was initially kind of a bummer... I definitely thought it was going to make the (already pleasantly campy) story a little TOO cheesy.

I ended up acting as bat-sh\*t crazy as any of those reality TV stars in real life: "BUT if I choose, Becky, she might backstab me and vote me!!! But will be BFF be mad at me if I choose her over my BF? I'm not here to make friends, I'm here to WIN!"

Whether it's a case of human-nature or of good story development, I was actually quite gripped. Without giving away too many spoilers, you also gradually learn the gravity of your choices and the show/situation to the greater public.

Also I got to bang Robert Pattison. 10/10 will shame-bonk vampire♥♥♥♥♥♥♥♥♥♥again.. It is lik Goat sim but so much betta (and not like goat sim). It is a great experience. But why so short... Q.Q

I would like to know more about the story. Good job so far guys.. This is a quick-playing fun, slightly psychedelic roguelike game. It's very simple -- if an enemy touches you, you die. If you touch your enemy first, he dies. Collect as much treasure as you can, get power-ups for special effects, and keep going for as long as you can. Games (at least for me) tend to last on the order of minutes, but you might do better.

It's a bit mind-bending, and you may die a few times before you figure stuff out, but I do recommend it.. NEVER BUY THIS GAME

THE PRICE WENT UP FROM ABOUT 2-5\$ TO THIS♥♥♥♥♥♥♥♥♥♥br>ITS SUCKS HORRIBLE GAMEPLAY AND EVERYTHING
